## Intelligent Multimedia Processing with Soft Computing

Series: Studies in Fuzziness and Soft Computing, Vol. 168

- **Presents novel applications of soft computing in multimedia processing**
- **Addresses researchers, graduate students, and industrial practitioners in the broad areas of multimedia and soft computing**

The past years have witnessed a large number of interesting applications of various soft computing techniques, such as fuzzy logic, neural networks, and evolutionary computation, to intelligent multimedia processing. This carefully edited monograph presents novel applications of soft computing in multimedia processing. It includes contributions by leading experts in their fields addressing important and timely problems in multimedia computing such as content analysis, indexing and retrieval, recognition and compression, or processing and filtering. This book aims at researchers, graduate students, and industrial practitioners in the broad areas of multimedia and soft computing.

2005, VIII, 473 p.
